In the report, it is mentioned that the size of each house is 28 ft by 13 1/2 ft But the drawing & the estimate show the dimensions of each house to be 14 1/4 by 16 1/4 ft

This discrepancy may be kindly verified. ~~Apart, construction~~ It is also not considered advisable to have small gaps between the houses as such gaps will soon be filled with unsightly structures or with dust and rubbish

I am therefore to request that the layout may be altered as shown in the enclosed plan prepared by the Local Architect

Sir,

With reference to your letter No L 6524/L1 dated 31st December 1943 returning the estimate for Rs 16,500/- for constructing 23 houses to the north of Beef Market in Jalapuri Extension, with certain observations, I have the honour to forward herewith the altered lay-out and plan for 26 houses amounting to Rs 17,500/- sanctioned by the Board of Trustees at -- their Ordinary Meeting held on 26th April 1944 and to request that you -- will be so good as to obtain sanction of Government thereto

2 The Report accompanying explains the necessity for the work - A copy of the Board's Resolution sanctioning the estimate is also enclosed for reference

3 In the lay-out plan given by the Architect he has suggested that houses might be built one by the side of the other with common walls six in a row This was discussed in the Board and was thought that twin units may be provided for instead of continuous houses with common walls as it would be difficult to dispose them of to private people later on Hence a modified plan as approved by the Board is now submitted for sanction

4 The cost of the work is proposed to be met out of the Palace and Narasimharaja Building Funds available in the Trust Board for the purpose

I have the honour to be,
Sir,
Your most obedient servant,

Chairman.
